

### **Land-Grant Endowment Funds**

The University of Alaska Land Grant Endowment has its origin in the federal land grant acts of 1915 and 1929 and subsequently the Alaska Statehood Act. Approximately 110,000 acres of land were transferred to the territory of Alaska and eventually to the Board of Regents to be held in trust for the university. The net proceeds from the sale, lease, exchange and other uses of these lands have been deposited in the University of Alaska Endowment Trust Fund as provided by AS 14.40.400. Assets of the fund are invested on a total return basis in accordance with principles established under AS 14.25.180.

The accompanying schedules of Net Assets and Changes in Net Assets reflect the financial position of the Land-Grant Endowment and related funds as of June 30, 2004 and the changes in net assets for the year then ended. The investments of the Land-Grant Endowment and Inflation-Proofing Fund, which have fair values at June 30, 2004 of \$84.4 and \$6.8 million, respectively, are invested in a consolidated endowment fund managed by the University of Alaska Foundation in accordance with an agreement and investment policy approved by the Board of Regents.

Expenditure of the endowment fund earnings is governed by regents' policy, which provides that a portion of the earnings be utilized to manage the university's lands, a portion be set aside in order to maintain the pni . agp BT/TT0 1 Tcp15.0

Land-Grant Endowment Funds  
Notes to the Financial Schedules  
June 30, 2004

By Acts of Congress in 1915 and 1929, approximately 110,000 acres of land were transferred to the territory of Alaska to be held in trust for the university. The grant lands were subsequently transferred to the state of Alaska and eventually to the Board of Regents to be held in trust for the university. Currently approximately 84,000 acres of these lands are held at no basis because fair value at the date of transfer was not determinable. In 1982 and 1988, the university was allowed to select certain state lands including timber and other rights as replacement for lands disposed of by the territory and the state. These replacement lands and property interests were recorded at their fair value as of the date of transfer.

**Land-Grant Trust Fund**

The Land-Grant Trust Fund as reported in these schedules represents the original land grant, the invested proceeds from the sale and/or development of these resources and the appreciation in value of the invested funds. The endowment is managed on a total return basis. Receivables of approximately \$5.2 million are primarily from sales of trust land, timber and mineral interests. Investments of approximately \$84.4 million are held in a consolidated endowment fund under the direction of the University of Alaska Foundation. The consolidated investment fund is managed by the Foundation's investment committee and treasurer in accordance with an investment policy

In fiscal year 2002, the Inflation-Proofing Fund advanced \$226,000 to partially fund the purchase of property adjacent to the Juneau Campus. Terms of the advance included a ten year repayment schedule at 6 percent interest. In fiscal year 2004, the Juneau Campus paid \$111,119, the remaining balance of the advance. The property is included in university's Investment in Plant fund group.

### **Revenue Fund**

The Revenue Fund represents a depository fund for the distributable earnings of the Land-Grant Trust Fund, the Inflation-Proofing Fund, and the Natural Resources Fund.

Investment income reported in the Revenue Fund represents current yield or income on investments and other assets of the endowment and related designated funds.

In fiscal year 2004, the Revenue Fund transferred \$516,189 to the land management operating budget reserve. The reserve balance of \$958,700 at June 30, 2004 is not reflected in these financial schedules.

### **Natural Resources Fund**

The Natural Resources Fund represents spendable funds designated by regents' policy to provide support for agriculture, forestry, fisheries, mineral, and other univers
