The following is a brief, initial summary of spring semester enrollment activity as of Tuesday, November 14, 2023.

Figures have been normalized relative to the first day of instruction for spring term, however all information is considered very preliminary at this time due to differences in the date spring term registration opened last year compared to the date for this year.

Priority registration for spring 2024 semester started more than one week earlier than for spring 2023. Open registration for spring 2024 semester started more than two weeks earlier than it did last year for spring 2023. As a result, course registration and revenue currently appear much greater for spring 2024 than spring 2023, year-over-year. This effect will stabilize as the first day of instruction approaches.

As of November 14, there were 6,024 students registered in 61,564 spring 2024 student credit hours (SCH). See page 2 for additional detail by academic unit.

Net tuition and fee revenue for spring 2024 totals \$23.7M for spring 2024, currently. More than 70 percent of revenue is from direct undergraduate and graduate level tuition, with another 15 percent generated by the non-resident tuition surcharge. Additional tuition and fees detail by university and revenue category is available on page 3.

Almost 3,880 applications have been initiated by prospective students for admission in spring 2024, up almost 19 percent (~620 applications) from spring 2023, year-over-year. The number of applications initiated by first-time, prospective students increased for each university, compared to last year: applications started or completed for UAA grew by about 30 percent (413); the number for UAF grew by just over 45 percent (102); and applications initiated for UAS increased about 53 percent (31). For additional information, see page 4.

Applications initiated by an individual may be pending information or may be completed and ready for admission consideration. Information about admissions and matriculation of accepted program majors is being validated for addition to this report in the future.

Note: Information is preliminary. Spring 2023 semester instruction began Tuesday January 17, 2023 and spring semester 2024 instruction will begin Tuesday January 16, 2024. Comparable dates relative to each university's weeks to start of instruction are reported, and if not available the closest comparable date is selected. Priority registration for spring 2024 semester started more than one week earlier than for spring 2023. Open registration for spring 2024 semester started more than two weeks earlier than it did last year for spring 2023.

Headcount is unduplicated at the reporting level. Includes all for-credit course registration activity, regardless of a student's degree seeking status. Developmental, undergraduate, professional, and graduate level courses are included. Data is provided by UAA, UAF and UAS, extracted on the report date from UA information systems.
