...requesting requests for  
 easements at little cost to agencies and utility partners. Recognizing that all public and private  
 utilities across Alaska are facing increasing costs, we believe it is important to  
 remind agencies of the easement process and to ensure fair market compensation.

As a *trust* Land-grant educational institution, University of Alaska (UA) is required to charge fair  
 market value for any

...properties, which has been a long-standing practice. I hope this  
 process is completed quickly and prevent future surprises.

potential
